FOR IMMEDIATE RELEASE:

STV|DPM Completes NVCC Move-In to Founders Hall

Hartford, CT, November 20, 2017 -- STV|DPM, part of STV, a national award winning firm that provides a full range of design and construction management services, including comprehensive owner's representative services, announced that it has completed an extensive procurement and relocation project on the campus of Naugatuck Valley Community College in Waterbury, CT.

STV|DPM was retained by the college to provide comprehensive furniture, fixtures and equipment (FF&E) procurement and move management services for the extensive project, which involved phased relocation and delivery within Founders Hall. The 85,540 square-foot academic building houses the college's allied health programs and recently underwent a \$43 million dollar renovation.

Project executive Mark DuPre, Sr. Assoc. AIA, senior project planner Roxanne Perugino, LEED AP, and assistant project manager Eric Byrd, all with STV|DPM, oversaw the delivery and installation of nursing, EMT, and physical therapy equipment including hospital beds, structural installations for the radiology lab, a mock ambulance for the EMT lab, and functional headwall units for respiratory labs.

In addition, the STV|DPM team successfully led an alternative, cost-effective purchasing solution for administrative space, which involved the use of reclaimed furniture from another state agency.

As a result of the accomplished relocation, NVCC extended its partnership with STV|DPM to continue with miscellaneous support projects due to complete this fall.

Founded more than 100 years ago, STV is a leader in providing construction management, architectural, planning, engineering, and environmental services for buildings, transportation systems, infrastructure, energy and other facilities. The firm is ranked 39th in Engineering News-Record's Top 500 Design Firms survey and 20th in Building Design + Construction magazine's Top 40 Construction Management firms. STV is 100 percent employee-owned.
